SUMMARY

"Motivated Data Science enthusiast with a strong foundation in Python, machine learning, and data visualization, eager to apply skills and grow through hands-on learning in a professional environment."

SKILLS

Skills: Data Science, Data Analysis, Machine Learning, Python, Power BI, SQL, Excel, PowerPoint, ChatGPT, Gen AI.

EDUCATION

Bachelors of Computer Application	Disha College, Pt. RSU	2021-2025	80%
12 th	Ryan International School, CBSE	2021	75.6%
10 th	Ryan International School, CBSE	2019	79.6%

EXPERIENCE

1. Data Analyst Intern

Nullclass Edtech Private Limited (Remote)

December 2024 – Present

- Collaborating on the Twitter analysis dashboard project using Power BI, analyzing and visualizing Twitter data for actionable insights.
- Working on tasks related to data cleaning, transformation, and creating interactive reports to support decision-making.

2. Data Analytics Trainee (Remote)

Medtoureasy

Dec 2024

- Training in data analytics, including data cleaning, transformation, and visualization to support business decision-making.

PROJECTS

1. Face Recognition Attendance Tracking App

- Built a Python-based face recognition app using OpenCV to automate attendance logging. Integrated a database for record management, improving operational accuracy.

2. Customer Segmentation Using Python

- Performed customer segmentation with Python, applying K-Means and hierarchical clustering to group customers. Delivered insights to enable targeted marketing strategies.

3. Twitter Analysis Dashboard (Power BI)

- Contributed to a Power BI project focused on analyzing Twitter data to identify trends and insights. Worked on data visualization and reporting, enabling strategic decision-making.

CERTIFICATE

1. Data Science and AI Training

Disha College | Sep 2024 – Nov 2024

- Completed hands-on projects applying AI methodologies to real-world datasets, focusing on data science concepts and machine learning algorithms.

2. Data Analytics Project Training

Nullclass Edtech Private Limited | Dec 2024

- Gaining practical experience in data analytics by working on industry-related projects and applying data analysis techniques.

3. Google Data Analytics Specialization

Google Coursera | Dec 2024

- Acquired practical expertise in data analytics through hands-on projects, focusing on data cleaning, analysis, visualization, and storytelling to drive data-driven decisions.
